

## A Child's Place at Hollin Hall

1500 Shenandoah Road  
Alexandria, VA 22308

As the weather gets warmer, we will be spending more time outdoors. During the months of June, July and August, we will have water play on a weekly basis. Water play days allow the children to play in the sprinklers and wading pools as well as to play other games associated with water. We ask that your child have a bathing suit, towel and water shoes for these activities.

We require all children participating in outdoor water activities to have a signed permission slip. If you would prefer your child not to participate, an alternative activity will be planned. Please feel free to see the Director or Assistant Director if you have any questions.

My child \_\_\_\_\_ has permission to participate in water play activities at A Child's Place at Hollin Hall. These activities include sprinkler play, wading pools, and games associated with water.
